Introduction

1. The National Land Commission (NLC) is established by Article 67 of the Constitution and the National Land Commission Act. NLC is among others charged with the responsibility of investigating historical land injustice (HLI) upon a complaint or on its own motion pursuant to Article 67 (2) (e) of the constitution and section 15 of the National Land Commission Act.

JKT T.G H.H. Am.

2. Pursuant to the above stated Mandate, the National Land Commission between 2017 and 2021, received historical land injustice claims from clans and groups of the Ogiek Community against the Government for forceful evictions in October 2009 from their alleged ancestral land. Other than the claims before the Commission, sections of the Ogiek Community have long fought for their rights before the courts locally and regionally. They also filed petitions to the National Assembly and filed complaints with other state organs such as the Commission on Administrative Justice.

3. Apart from the Ogiek Community who claimed forceful eviction from the Mau Forest in October 2009, there are other claimants who alleged that they were also evicted by the government and their claims remain unresolved.

The Ogiek Ancestral Claim

4. The Ogiek Community allegedly inhabit and derive their means of livelihood from the greater Mau Forest Complex, Mt. Elgon Forest among other forests. They are also referred to as *Dorobo*. *The Ogiek* stated that the name *Dorobo* is derogatory, and indeed the Masai apply this term to poor people or hunter-gatherers. They claim further to be an indigenous minority ethnic group comprising about 20,000 members and about 15,000 of whom inhabit the greater Mau Forest complex, a land area of about 400,000 hectares, straddling about seven administrative districts (now Counties).

5. The Ogiek Community allege that the Mau Forest Complex which is a public forest is their ancestral land that was taken away from them through colonial displacement and subsequently through administrative action. Establishment of public forests in Kenya was first done through the gazettement of 1932 including the Mau Forest Complex. There has been a constant conflict between the Kenyan Government and the Ogiek community which has led to frequent evictions from their homes where the government claim that it forms part of the public forest. The extent of the Mau Forest Complex is as indicated on **Table 1** below and it traverses the Counties of Baringo, Uasin Gishu, Nandi, Kericho, Bomet, Nakuru, Elgeyo Marakwet and Narok.

6. Due to the perennial dispute between the Ogiek Community and the Kenyan government, the Ogiek Community in the Mau Forest Complex moved to courts to have their disputes adjudicated. The other Mau Forest Evictees of 2009 submitted their claims to the Commission with some of them also approaching the local courts.

Local Court Cases

i. Nairobi ELC Civil Suit No. 821 of 2012 (OS) Joseph Letuya & 21 Others v. AG & 5 Others

7. The above case touched on the evictions of the Ogiek Community from East Mau in 2009 by the National Government. The Ogiek of East Mau went to Court challenging the evictions on the basis that they were discriminatory and that the land in question was originally their ancestral land. The court in its Judgment dated 17/03/2014 presided by Nyamweya J ordered as follows:

   a) NLC is directed within one year from date of judgement to identify and open a register of members of the Ogiek Community in consultation with the Ogiek Council of Elders.

   b) Identify land for settlement of the said Ogiek members who were not settled in exercised areas in Marioshioni Location, Elburgon Division and Nessuit

JKT TG HH Am.

Location, Njoro Division, Nakuru and have not been given land in line with the recommendations in the Report of the Government Task Force on the Conservation of the Mau Forest Complex published in March, 2009.

ii. Kericho ELC Pet No.5 & 6 of 2017 (Consolidated) John Keny & Others v. Ministry of Lands & Others

8. This case touched on the evictions of the Ogiek Community of Ragita from South West Mau in 2009 by the National Government. They went to court challenging the evictions on the basis that the land in question was their ancestral land originally. The court delivered its judgment on 27/07/2018 presided by Onyango J and ordered as follows:

    a) NLC is directed within 10 months from date of judgement to identify and open a register of members of the Ogiek Community evicted from South West Mau (Konoin-Bomet) in consultation with the chiefs and Ogiek Council of Elders.

    b) Identify land for resettlement of the said Ogiek members who were not settled in line with the recommendations in the Report of the Government Task Force on the Conservation of the Mau Forest Complex published in March, 2009.

    c) The Court made further orders directing the Commission to file the Comprehensive list (Register) of the Ogiek Community in compliance with the order requiring the Commission to identify and open a register of the Ogiek of South West Mau.

iii. Court Cases on NLC/HLI/606/2019-Gapselembu Ogiek (Dorobo Community), NLC/HLI/1751/2021-Ogiek Community of Nkareta, and NLC/HLI/1750/2021-Nkaroni Community

9. The Gapselembu Ogiek (Dorobo Community) and Ogiek Community of Nkareta in Mau Forest Complex have ongoing court cases touching on their claims being **Nakuru ELC No. 5 of 2012 and Narok ELC Petition No.10 of 2017** respectively.

10. In another matter, the Nkaroni Community in the Mau Forest Complex (Nkaroni Group Ranch) also filed **Narok Petition 12 & 13 of 2018** for the Court to adjudicate their dispute in Masai Mau. The court dismissed their claim on the basis that the Ranch had encroached into the Masai Mau Forest.

Continental Court Case-The African Court on Human and Peoples Rights

iv. Application No. 006/2012- In the Matter of African Commission on Human and Peoples' Rights v. The Republic of Kenya

11. The African Court on Human and Peoples Rights, at its 45th session on 26 May 2017 in Arusha, ruled in favor of the Ogiek indigenous peoples in their claim against the Kenyan Government, for consistent violations and denial of their land rights. The Court held, following an eight-year process, that the Kenyan government violated Articles 1, 2, 8,14, 17 and (3), 21, and 22 of the African Charter on Human and Peoples Rights.

12. This case was originally lodged with the African Commission on Human and Peoples' Rights, but was referred for the first time in history to the Court on the basis that it evidences grave, mass human rights violations. ESCR-Net members Minority Rights Group International (MRG), Ogiek Peoples' Development Program (OPDP) and CEMIRIDE were the three original Complainants before the African Commission.

13. The case was heard by the African Court in November 2014. MRG delivered an oral intervention on behalf of the original Complainants, whilst two Ogiek community members (Mary Jepkemei and Patrick Kuresoi) and other expert witnesses gave testimony. MRG supported 25 Ogiek community members to attend the hearing, and supported a further 40 to view the hearing in Kenya via a live stream from the Court. The celebrated judgement went further to classify its reasoning and orders as follows;

The African Court's findings and orders

14. On the Respondent State's objections

a) Dismisses all the Respondent State's objections;

15. On pecuniary reparations

a) Orders the Respondent State to pay the sum of KES 57,850,000. (Fifty seven million, eight hundred and fifty thousand Kenya Shillings), free from any government tax, as compensation for the material prejudice suffered by the Ogiek;
b) Orders the Respondent State to pay the sum of KES 100 000 000 (One hundred million Kenya Shillings), free from any government tax, as compensation for the moral prejudice suffered by the Ogiek;

JKT TG HH

16. On non-pecuniary reparations

a) Orders the Respondent State to take all necessary measures, legislative, administrative or otherwise to identify, in consultation with the Ogiek and/or their representatives, and delimit, demarcate and title Ogiek ancestral land and to grant collective title to such land in order to ensure, with legal certainty, the Ogiek's use and enjoyment of the same;

b) Orders the Respondent State, where concessions and/or leases have been granted over Ogiek ancestral land, to commence dialogue and consultations between the Ogiek and their representatives and the other concerned parties for purposes of reaching an agreement on whether or not they can be allowed to continue their operations by way of lease and/or royalty and benefit sharing with the Ogiek in line with all applicable laws. Where it proves impossible to reach a compromise, the Respondent State is ordered to compensate the concerned third parties and return such land to the Ogiek;

c) Orders that the Respondent State must take all appropriate measures, within one (1) year, to guarantee full recognition of the Ogiek as an indigenous people of Kenya in an effective manner, including but not limited to according full recognition to the Ogiek language and Ogiek cultural and religious practices;

d) Dismisses the Applicant's prayer for a public apology;

e) Dismisses the Applicant's prayer for the erection of a monument to commemorate the human rights violations suffered by the Ogiek;

f) Orders the Respondent State to take all necessary legislative, administrative or other measures to recognize, respect and protect the right of the Ogiek to be effectively consulted, in accordance with their tradition/customs in respect of all development, conservation or investment projects on Ogiek ancestral land;

g) Orders the Respondent State to ensure the full consultation and participation of the Ogiek, in accordance with their traditions/customs, in the reparation process as ordered in this judgment;

JKT TG H.H. Am

h) Orders the Respondent State to adopt legislative, administrative and/or any other measures to give full effect to the terms of this judgment as a means of guaranteeing the non-repetition of the violations identified;

i) Orders the Respondent State to take the necessary administrative, legislative and any other measures within twelve (12) months of the notification of this judgment to establish a community development fund for the Ogiek which should be a repository of all the funds ordered as compensation in this case;

j) Orders the Respondent State, within twelve (12) months of notification of this judgment, to take legislative, administrative or any other measures to establish and operationalize the Committee for the management of the development fund ordered in this Judgment;

17. On implementation and reporting

a) Orders that the Respondent State must, within six (6) months of notification of this judgment, publish the official English summaries, developed by the Registry of the Court, of this judgment together with that of the judgment of 26 May 2017. These summaries must be published, once in the official Government Gazette and once in a newspaper with widespread national circulation. The Respondent State must also, within the six (6) months period earlier referred to, publish the full judgments on merits and on reparations together with the summaries provided by the Registry of the Court on an official government website where they should remain available for a period of at least one (1) year;

b) Orders the Respondent State to submit, within twelve (12) months from the date of notification of this Judgment, a report on the status of implementation of all the Orders herein;

c) Holds, that it shall conduct a hearing on the status of implementation of the orders made in this judgment on a date to be appointed by the Court twelve (12) months from the date of this judgment.

Implementation attempts by the Government of Kenya

18. In November 2017, the Government of Kenya established a task force via Kenya Gazette Notice No.10944 of 10/11/17 to advise it on the implementation of the orders issued by the African Court against the Government of Kenya in respect of the rights of the Ogiek

JKT TG H·H

Community of Mau Forest Complex and enhancing the participation of indigenous communities in the sustainable management of forest.

19. Following the appointment of the above task force, the Commission in its decision dated 7th February 2019 referred twelve (12) historical land injustice claims submitted by the Ogiek by that time to the task force for redress. The 12 claims are;

    i. Chepkitale Ogiek Community of Mount Elgon (NLC/HLI/361/2018).
    ii. Dorobo Community of Chepkitale and Chepyuk Settlement Scheme (NLC/HLI/362/2018).
    iii. Nandi South Ogiek Community (NLC/HLI/078/2017).
    iv. Ogiek Marginalized (NLC/HLI/106/2017).
    v. Ogiek Kurbanyat (NLC/HLI/091/2017).
    vi. Mau Forest Evictees ((NLC/HLI/086/2017).
    vii. Ogiek Land Injustices (NLC/HLI/326/2018).
    viii. West South Ogiek Mau Forest Ogiek (Litein) (NLC/HLI/065/2017).
    ix. Ogiek Welfare Council (NLC/HLI/325/2018).
    x. Chepkitale Ogiek Council of Elders (NLC/HLI/198/2018).
    xi. Lelpanget and Kipkongor squatters (NLC/HLI/121/2018).
    xii. Ogiek of Tranzoia (NLC/HLI/346/2018).

20. The report of the task force is yet to be made public and the 12 claims referred to the task force remain unresolved. Moreover, on 17th February 2023, an Inter-Ministerial Committee on Implementation Roadmap of the Judgement of the African Court was appointed by the Principal Secretary, Ministry of Environment, Forestry and Climate Change. Similarly, the Inter-Ministerial Committee report has not been made public.

Investigations by the Commission and Compliance with the Court Judgments and Orders.

21. A majority of the Ogiek claims are within the Mau Forest Complex which has been the subject of the court cases stated above except in a few cases such as the Ogiek of Mt. Elgon and the Ogiek of Elgeyo Marakwet County. The courts have spoken to the Ogiek land issue. The three court decisions as outlined above have ordered the national government to resettle the Ogiek Community and bring the prolonged suffering of the Ogiek people to an end. The various claims of the Ogiek Community and those of Mau Forest evictees overlap and in some instances, the same claim submitted by different factions of the same community.

JKT TG H·H Ann.

22. It is also worth noting that the Cabinet Secretary, Ministry of Environment and Forestry wrote to the Commission via letter dated 25/04/2022 seeking to know whether the Commission had identified and opened a register of the Ogiek Community of Mau Forest Complex and whether the Commission had identified alternative land for settlement of the Ogiek Community in compliance with the local and the African court decisions.

23. The National Land Commission set in motion steps to comply with the decisions of the courts as noted and more specifically:

    a) Identify and open a register of members of the Ogiek Community

    b) Identify alternative land for settlement of the Ogiek

24. Against this backdrop the Commission sought the assistance of the national and county governments through public officials such as area chiefs to identify the Ogiek Community of Mau Forest Complex in close consultation with the Ogiek Council of Elders. It also partnered with other state organs such as the Commission on Administrative of Justice. The Commission invited members of the Ogiek Community of the Mau Forest Complex and other Mau Forest evictees to Utalii College in Nairobi on 29th to 30th November 2022 where the Commission they made oral and written submissions in support of their claims. Another hearing was held in Nakuru West DCC office on 7th August, 2023. The claims are from groups of the Ogiek Community as listed in **Annex 1** of this report.

25. The Commission also called the Ministry of Lands, the Attorney General and Kenya Forest Service for a consultative meeting on 23/01/2024. The commission also undertook a verification and validation exercise in the Mau Forest Complex from 8th-11th August 2023. The Ogiek Council of Elders submitted supporting documents including a list of members. The validation exercise and ground truthing culminated in a number of findings by the Commission.

26. Key Findings of the Consultative Processes

a) In view of the fact that the historical land injustice claims submitted by the Ogiek Community have been adjudicated by the various courts, the Commission decided to write a report on how the Commission has complied with the orders directed at it.

b) Whereas the Nyamweya J case gave orders for the Ogiek of East Mau, the same claimants went to the African Court. Therefore, complying with the orders of the African Court means implementing the Nyamweya J case.

JKT TG H.H

c) The seven historical land injustice claims submitted by the Ogiek Communities of Mt. Elgon and Elgeyo Marakwet County were not part of the African court. Therefore, their claims will be processed separately.

d) The Commission established that the names Ogiek and Dorobo refer to the same people but they chose to be identified as Ogiek and not the Dorobos yet some claimants refer to Dorobo or Ndorobo. The Commission adopted the name Ogiek as preferred by the claimants.

e) There are splinter groups of the Ogiek Community within the Mau Forest Complex who submitted separate claims resulting in duplications but they all belong to the Ogiek Community. The Commission therefore decided to consolidate all claims submitted by the Ogiek Community. The list of consolidated cases is to be found in **Annex 1** of this report. The claim by the Torobeek was found to be distinct and has been processed separately.

f) The Commission with the assistance of the local chiefs, the Deputy County Commissioner, the Ogiek Council of Elders could not find the Ogiek of South West Mau (Konoin), Bomet.

g) Some of the HLI claims by the Ogiek Community are either active in local courts or have been determined by the local courts. The Gapselembu Ogiek (Dorobo Community) – HLI/606 and Ogiek Community of Nkareta – HLI/1751 in Mau Forest Complex have **ongoing court cases** touching on their claims being **Nakuru ELC No. 5 of 2012 and Narok ELC Petition No.10 of 2017** respectively. Whereas, the Nkaroni Community – HLI/1750, had filed a suit being **Narok Petition 12 & 13 of 2018** challenging their eviction from Masai Mau, their case was dismissed by the Court on the basis that the Group Ranch had encroached into the Masai Mau Forest.

h) The evictees of the Mau Forest affected by the 2009 evictions were settled in a number of settlement schemes for example in Majani Mingi, Lomolo A and Lomolo B settlement schemes. Some of the beneficiaries of settlement schemes sold their land after benefitting and again becoming landless resulting in endless land issues on resettlement.

i) The Settlement function was moved from the National Land Commission back to the Ministry in charge of Lands via the Land Laws (Amendment) Act of 2016.

JKT TG H.H. Aw.

j) In accordance with the ground-truthing towards opening a **register** of members of the Ogiek Community, the National Land Commission adopted the validated list of Ogiek Community members through a sworn affidavit by the Chairman of the Ogiek Council of Elders. The Register **(Comprehensive list)** of members of the Ogiek Community in the Mau Forest Complex, signed by the Ogiek Council of Elders included but not limited to those who were part of the Arusha case.

27. Conclusions

a) The National Land Commission therefore adopted the **Comprehensive list** of members of the Ogiek Community whose numbers total to 25,019 members. The list of names found on **Annex 2** in this report makes up the **register of Ogiek in Mau Forest Complex** as of the date of this report. This register does not include the Ogiek of Mt Elgon and Elgeiyo Marakwet County.

b) Secondly, all the HLI claims listed in **Annex 1** of this report is hereby dispensed with by the Commission in accordance with this report, save for court cases pending before the Court.

c) Finally, as noted in the key findings by the Commission, the Settlement function was moved back to the Ministry in Charge of Lands via the Land Laws (Amendment) Act of 2016. The recommendations made hereinafter are based on the existing legal framework.

28. Recommendations

The Commission makes the following recommendations:

a) The Ministry of Lands, Housing, Public Works and Urban Development and Ministry of Interior and Coordination of National Government to verify and identify those in the Register **(Comprehensive list in Annex 2)** who have benefitted from any settlement scheme and come up with a list of those who have not benefitted so that they can be settled.

b) The Ministry of Lands, Housing and Urban Development as the state organ responsible for the settlement function as per the Land Laws (Amendment) Act, 2016 shall identify appropriate **land(s)** to resettle the Ogiek Community who have not benefitted in any settlement scheme as per recommendation (a) above in line with the **African Court Case Application No. 006/2012-In the Matter of African Commission on Human and Peoples' Rights v. The**

JKT TG H.H.

c) Any **land(s)** that shall be identified for settlement of the Ogiek Community in (b) above shall be given as community land under the Community Land Act No. 27 of 2016.

d) The Kenya Forest Service to consider giving licenses or permits to the Ogiek Community for user rights or community rights within the Mau Forest Complex for purposes of extracting medicinal properties, bee keeping and religious activity within the framework of the Forest Conservation and Management Act, 2016.

BRIEF BACKGROUND OF THE GOTOPSOOGOT COUNCIL OF ELDERS

The above Council of Elders was elected in the year 2020 as this was a long time discussion of the whole Ogiek Community living in the six counties, where our indigenous community lives.

Through our clan's the elders were identified according to their ability amongst their clan's and the entire community. Also our main objective is to be the principle organ of the Ogiek in activating, advising, supporting and directing the community culture, traditions, customs and general development.

It shall be non-political and non-profit making. The umbrella organization which is made-up of six chapters as chapters were formed in their respective counties.

The above Ogiek Council of Elder's was later registered on 6th July 2022 in the name of **(GOTOPSOGOOT COUNCIL OF ELDERS)** and started their work immediately by conducting community meetings across the six counties, later they agreed through their clan's to update the Ogiek people's register which as Council have done it successfully. Through clan Elders with their clan secretaries helped in compiling and identifying clan members.

Therefore today the council **(GOTOPSOGOOT COUNCIL OF ELDERS)** have the up-dated register of Eastern Mau Chapter and the rest of the Chapter to present to the National land Commission.

Also attached herewith is a brief life history of Ogiek Community.

GOTOPSOOGOT COUNCIL - 2023

They are Indigenous community, Hunters Gatherers of various kinds of fruits and roots of plants. They are also collectors of both Bees which reside in Beehive and the one in a hole in the ground (Gosomek).It is said that long ago they adopted a life of forest, they had no home and could live under a back of tree which its branches and leaves covered up and no rain could enter in. According to God wishes these communities was created by God to cope with the forest and are Flora and Fauna.

Historically Ogiek Community was the first Inhabitants in Kenya. They live in the largest Canopy of Mau Forest Complex in Kenya. This is Nakuru, Narok, Kericho, Koibatek and Uasin Gishu Counties.

In about 17th and 18th Centuries.

Our fore Fathers told us that the Forest was very thick well equipped with huge trees radius or circumference of 20fts.In a time ofrain trees bare a lot of fruits and flowers to enable Bees to collect nectars. All various kinds of animals were available in a great quantity. They told us, the life was good; people were huge and tall bearing hair almost covering their body.

According to our Fore Fathers

Each community or clan e.g. Eastern Mau Ogiek had their community forest. Land from the top of Mail complex extending to the lower parts of **Lake Naivasha** along to **Lake Bogoria.**

Guarding or protecting community or clan forest

Each Community or clan had young members appointed to protect and guard their forest lineage e.g. Fires, cutting of trees, wild animals and theft of their own beehives, gaming animals in their forest. Ifan animal aimed to be killed escape with injuries and entered to another community's Territory Forest could be reported to escape quarrels. Our fore fathers told us that at end of the

	19th CenhJry this was 1895, the colonization entered Kenya. They could identify white people with different clothes, they later realized that these were called English men, Germans, Dutchmen, Italians and Portuguese which they term themselves as Ingiras, Ilinjirimani and Ildashi Talialek and their clothe Ilorida. They said that, they forced to join Troops.
1914 wore:	They were told that, this was first world wore which erupted from Europeans Countries seeking colonization in African Countries.
In 1945	Another wore took place and was said ended soon. By this time Imperial British East Africa worn to Rule Kenya & Germany ruled Tanzania. The British Government after taking power in Kenya, they ruled it through Majiboism headed by Sir Evaring Baring.
Sir, Catter Commision Task Force	In 1932 this Commision was formed and all native of Kenya was provided with their own reservers, I.e Kikuyu Community were provided Central, Luo's with Nyanza Wabaluyhia Western, Kipsigis with North Rift and so on. Except Ogiek Community who were not considered and instead their community forest ordinance. Ogiek Community started problems there. *The Maasai Community gave them a name known to them Ilitorobo which in Swahili is* Wadorobo, meaning poorest community ever relaying on honey and wild animals in forest.
1n 1946	When the Europeans took powers they provided their leader of wore with highland farms. Some of the Ogiek community was residing close to them and many employed in their farms. Forest stations were also established by colonial government and since Ogiek were found in this forest stations, their names were given to this stations e.g Mariashoni forest station are named after Ogiek sub/tribe known as Moriosonik and so on to stations in Eastern Mau Block. **See the Map of Eastern Block**
In 1948 – 1952 Mau-Mau rebellion erupted and colonial government declared the country emergency many people were detained and jailed all this was because they were fighting for their rights. Even some were killed and the country was in sorrow.	Ogiek in this region were totally frustrated or transferred to Chepolungu, Olenguruone, Narok and Eburu. Some who were known Chairo Clan were pushed to Kinale forest or Kikuyu reserve but of their own accord went at Mau escarpment and Rift Valley escaping problems the faced. And since they left their belongings e.g. Beehives they came back secretly. And all in all this was their ancestral land in a lineage of clan territories. **See the map**

GOVERNMENT COPY 2023

In 1958	Ogiek community of this region were now recognized by the forest department through the Assistant conservator of forest Elburgon R.D.H Rowe who wrote a letter to conservator of forests Londian and Molo District Commissioner giving details of Ogiek Community of Eastern Mau Forest, number of members and their domestic animals. Also Marioshoni and Nessuit were revealed to be District and Eastern Mau as whole. **Refer the List**
In 1963	As per Eviction of 1941, in Western Mau and South West Mau done thereby government and forest department affected 400 males, 500 females, and 900 children. All were Kipsigis Community who as by then infiltrated in to forest and were sent back to Kericho through their chief Mr. Nim. Mr Cowley was Administrator and found 30 Ogiek (Wadorobo). The Wadorobo had nowhere to go and filtrated back to forest as there was nowhere to reside, this was in 1945. This was done by DC of Nakuru and conservator of forests Mr. F.H. ABRAHAM. **Refer the letter.**
In 1964	The very conservator of forest Londian together with Ogiek members wrote a memorandum requesting a settlement or reserve to reside Ogiek community with their stock which were now increasing in a number. But for some unknown reasons or Negligence of government the matter was dropped. As we Ogiek community referred the government of Kenya does not respect this commm1ity because of unknown issues and have been twisting, evicting mixing; and delaying them without providing with the community land so far even winning several cases in courts. ***Refer the letter addressed to late Hon President Moi of 25th April 1964, written by Richard Rondorot and Ogiek Members.*** **Refer 86/1**
In 1972	The Forest Department evicted Ogiek community and sold their belongings, cows, bulls, sheep and goats at a throw prize and used the money. Headed by the then provincial commissioner Hon. Isaiah Mathenge in S West Mau putting Ogiek into severe poverty and sycophancy. God fill mercy to this community.
In 1988	*All people were evicted in Government forests and Ogiek community was camped in every station* they were, stopped for cultivation and no schools for their children for 6 years. This was also terrible to them.

GOVERNORS COUNCIL 2023

God fulfill their journey for struggling their Ancestral land.

In 1991 Forest lease by the European countries ended. Hon. President Moi sort to assist Ogiek get their ancestral land. He then approached UNEP. Headquarters in Geneva Switzerland acquiring a part of forest land to settle Ogiek Community. This was politicized by politicians where by other communities were deployed from other communities and provided land in the forest. This has made Mau-Complex be a region of quarrels and clashes between the surrounding communities.
In spite of IFCP. **MEMORANDUM of UNDERSTANDING** Dorobos in South West Mau Forest which was written by ministry of Environment and National Resources through the Forest Department Headquarters Nairobi. This Agreement was between the Kenyan and British Governments warning to do not interfere with Ogiek communities in Narok, Kericho and Nakuru counties. All this was ignored by the government, **Refer a letter No: NFMD/COMF/1190/61**

In 1997 After losing hope this, community ascended to courts seeking for justice. They went to Nairobi High Court in the very year and s1e the government through Kamau Kuria Advocate. The case took 21 years and finally rule on behave of Ogiek community.
But all in vain for no implementation.

In 2008 The government of Kenya called a meeting at KICC Conference Center. 9 Ministries attended headed by the Prime Minister and all Mau forest stake holders. This meeting was to rescue conserve and rehabilitate Mau forest complex. In addition to provide Ogiek long term solutions for their community land. Forest phases of eviction were edicated and places to evict were marked. **Refer a map of Mau Complex drawn**. But all this hit a stone, for unknown issues.

In 2009 The community of Ogiek formed an organization namely Ogiek peoples development program. (OPDP) which led them to file a case seeking justice on human and people's rights rescheduled in Bajun Gambia. The commission referred us to AU Court of Africa, situated in Arusha Tanzania. Also we Ogiek were pushed to Addis Ababa Ethiopia for case mention and Ogiek attended. In this matter, it was government temptation and frustrations. This case also took 9 years and ruled on behave of Ogiek. They wore land mark. This was on **June 26, 2017.**

In 2010 A council of Elders were nominated through Barasas and 60 council of elders appointed and launched on March 2010. The purpose of Elders was to assist government to identify their members in lineage of clanism and to restore peace in Mau Complex.

GOK-OGIEK COURT CASE 2023

In 2017

Ogiek worn a case in Arusha Tanzania. Inthe very 2017 the government of Kenya was given 60 days to implement Ogiek community land and Ogiek community to provide to court submissions. The Kenyan government appointed taskforce headed by Mwakima who used their term until the end without proper information or result. It also appointed another taskforce headed by Dr. Robert Kibugi Gazette Notice **No. 11215** which after all was thrown away at unknown matter without any report. ***It is only God to proclaim/or tl1eproblem that Ogiek community faces.***

In 2020

On 21st Sept 2020 a meeting was held at Naivasha Hotel Spear head by Cabinet Secretary Fred Matiangi CS for Environment Keriako Tobiko, CS for Lands Verodah Karoney and Energy CS Mr. Charles Keter, Regional Commissioner Rift Valley and Heads of Government Departments. *This followed the directives of Hon President Uhuru Kenyatta wishing to end Mau- Complex land* row cases and crises ever happened in Mau Complex. In the meeting at Lake Naivasha Resort Hotel in Naivasha, Ogiek was not actually satisfied with the government process which was encouraging new immigrants. Government proclamation of resettling all persons residing in Eastern Mau and denied the rule of court which Ogiek worn land mark on ancestral land in Arusha by demining them issuing them 2140 hectors for 45000 people. It is actually a1111oying and painful to win a case and be twisted upside down.

In 19th Sept 2020

Ogiek council of Elders and the NGOs Heads filed a petition against the ministry of Environment and Forestry denial of access to information in the form of the taskforce. Report
The implementation of the Mau Ogiek judgment of African Court on Human and. Peoples Right and instead form Multi-Agency Team to implement Ogiek land settlement contrary to the court judgment mixing Ogiek *with other communities to assimilate them and took Ogiek lands. We are mourning for this matter.*
Let the Government follow the channel and settle Ogiek community for their right community land in accordance to the Arusha Judgment Rule.

OGIEK/DOROBO PEOPLES' REGISTER SUBCOUNTYS OF GILGIL/NAIVASHA (EBURU – MBARUK WARD)

YEAR 2017

AN OGIEK PEOPLE'S INITIATIVE @2017

THE EBURU DOROBO (OGIEKI) EARNEST REQUEST TO THE GOVERNMENT OF THE REPUBLIC OF KENYA DATED 02ND NOVEMBER 2020

This is the exhibit marked "JLS 2" refered to the annexed Affidavit / Declaration of JOHN LOBOLO SIRONGA Sworn / Declared before me this 22nd day of July 2021 at Nairobi (4) Commissioner for Oaths

HISTORY

Since 1900s, we the 300 Dorobos/Ogiek from Eburru , honestly make an earnest request and plea to the authorities and conservational entities to make our case with the government of republic of Kenya on our behalf for we have lived in this forest as our home peacefully gathering honey, wild fruits and herbs. This forest has been our pharmacy, laboratory and library. We conserved the natural amenities therein; a tradition shared and passed down by our forefathers to us and thus generations to generations.

During the year 2005 and 2009, our life's changed and we became beggars when Kenya Government decided to save the Mau forest as one' of the Kenyas's water towers from the people who encroached it for illegal activities and farming and evicted all including the Ogiek who used to live in without destroying the habitat.

All the Eburru Ogiek used to live In the forest station area but later on kengen came and drilled well to generate power who unearthed over 30 parent's graves and pushed same us away without given an alternative place to live whereby we beg places to say from neighboring communities while others still lives there.

Our livelihood and our traditional customs had been affected; no access to education for our children, hospital and other modern activities like other communities, and it is our request to be helped to keep identity for present and future generations.

HOW IT WAS HANDLED

Majority of the Ogiek communities in other forest blocks were compensated with money, others resettled in their original forest while others in new forest areas, but Eburru Ogiek were never resettled compensated

By July 20100, the Government through Kenya Water Towers Agency,(Mau secretariat) came back again and took a new register from Eburru Ogiek in order to get the right number of Ogiek but so far nothing has changed to our lives yet, except the updated register, the promise of settlement and livelihood activities that we have been allowed to undertake inside the forest

What is now on the ground is that the Eburru forest has electrically fenced and title deed issued to Kenya Forest Service. Eburru forest was established and gazette as a forest nature reserve in 1932. The grounds that contributed to the successful fencing are M-pesa foundation (safaricom), Kenya Forest Service and Rhino ark who did the actual fencing. Some of our members provided labour.

Green belt movement, Eburru Rafiki, Kenya Forest Research Institute, Energy Regulatory Commission, Safaricom and our members participated in tree planting. This happened between the year 2013 to date.

Our humble request to the Government has always been and continue to be resettle the Eburru Ogiek in a place next to Eburru Forest in a 3500 Acres of land still held by ADC between Kipkulei's farm in Ndabibi Location, Naivasha Sub-County and Gilgil sub-county. Nakuru County, of which we request the settlement in the suitable area of 2000 acres with the rest being turned into community forest, so that we can access the forest for honey, herbs and other cultural activities, Also enjoy the fruits of our independent country Kenya like the rest of its citizens we have been allowed to do the bee keeping project in the forest and so far we have 400 beehives majority of them colonized wit bees and this is the only income generation for the whole community and if resettled we can do fetter farming and other economic activities.

Our population is small 209 adults of 300 located in Gilgil Sub county the members are from Eburru Location , Oljorai Location and Ndabibi Location and others are farm labourers in Lord Delamare, Marura estates.

Which they acquired through purchase or short term leases, others work as farm labourlers. Other rnt houses, but take the livestock to graze in Eburru forests. Some members have formed Kiserian Bee Keepers and have over 400 bee hives in the forests.

We would like also request the government to assist the Eburru Ogiek (dorobo)in modern development such as Schools, hospitals and infrastructures among others in order to boost lives. It is a government policy that the poor, the landless and the needy Kenyans be settled so as to lead settled lives and economies, while participating in National development processes

By and on behalf of 300 adults.

KIPTORORO LOCATION CHEMARE AND CHEMATIC SUB-LOCATION (SOUTH WEST MAU) OGIEK COVERING LETTER

The undersigned Ogiek Council of elders state as follows:-

1. Due to resistance of register formation from other Ogiek families of South West Mau more so Kiptororo region due to differences that occurred during allocation exercises, the council of elders have resolved that incase of some few who were left unregistered or listed and genuinely belongs to the Ogiek Community, will be reconsidered during the re-allocation exercise.

2. Incase of having registered or listed an individual who does not belong to the Ogiek community, the Ogiek Council of elders are equally legible to decline to allocate the land to the very outsider.

3. The council of elders have also stated that their territories be demarcated or boundaries be identified for the purpose of their territorial security, i.e for their cultural and herbal safety; and equally of the animals habitation living in their ancestral land (forest).

28TH NOVEMBER, 2022

Dear Sir/Madam,

RE: OGIEK COMMUNITY LIVING IN NANDI-NORTHERN TINDERET.

We refer to the above matter.

The aforementioned is a community that has been living in the Serengonik forest-Northern Tinderet until the year 2006 when they were forced out of the forest by the government. They have since been rendered homeless following the events thereof.

They presented their plight to the commission through their petition captured as claim REF NO: NLC/HLI/542/2018 dated 26/07/2018. Their claim was processed, heard and a determination issued and gazetted on 1st March 2019.

We hereby request your good office to accord them the necessary assistance required by them.

Your indulgence in the matter will be highly appreciated.

COUNTY GOVERNMENT OF NANDI
COUNTY ATTORNEY
28 NOV 2022

Yours faithfully,

Maureen Chepngetich

OGIEK OF SERENGONIC FOREST PROPOSAL

PROPOSAL OF OGIEK COMMUNITY OF SERENGONIK (NANDI COUNTY)

The Ogiek community has been living in Serengonik Forest since their all livelihood up to 2006 when they were forced to move out of their original [matrimonial] home by the government.

In 1983 they were given a sub-location which was located inside the forest called Serengonik sub-location. Their first assistant chief called Kipkoech Singoei reigned the Ogiek from 1983-1998 when he passed away.

In 1999, Government advertised the sub-location to be vacant .In 2001 the Government gave another assistant chief named David Kosgei .In 2006, they were chased and people were separated .The reason for this was that there were other non-Ogiek who came to herd their cattle and also destroyed the forest by cutting down trees for charcoal and other businesses.

After that the Ogiek and the Government agreed that all people including them to come out of the Sengonik forest so that the Government can get room to return Ogiek only in to their *homeland* .

This is the exhibit marked "JLS.1A" referred to the annexed Affidavit / Declaration of JOHN LOBOLO SIRONGA Sworn / Declared before me this 22nd day of Jan 20 19 at Nakuru

The Government officials who were there include:

1) DC.Lydia Muriuki
2) Otieno Ombaka[District Forest Officer]
3) Ogiek leaders

The Government officials and Ogiek leaders came to an agreement that the Ogiek should go and live in the station. Assistant chief was given the office of the DC up to date.

The Ogiek left their property in Serengonik forest they include:

- Beehives
- Polling station
- Schools churches
- Cultural places [kapkoros]
- Good environment
- Their fertile lands

They left their schools and polling stations which are currently working.
